Bible Code: Genesis Update

Due to the software programme I used in the original search for Jesus in Isaiah being updated and becoming more powerful, the occurrences have increased 6.151 times to a phenomenal 252,708 encryptions. They commence with an ELS of 1 and conclude with an ELS of -78,063, this also being the number of letters in the Book of Genesis.

The estimate of occurrences is 252,738: the actual is 252,708.

This has translated into 6,319 A4 pages.
